I would like an acknowledgement from the designated agency Yes No

Signature to authorize your designation Date

Designated agency must meet eligibility criteria of IRS 501(c)(3) tax exempt status and health or human care service agency. In order to keep costs as low as possible for our donors, a designation of less than \$60 will be treated as a gift to our general allocation fund. If the designated agency is unable to be located through a reasonable attempt, gifts will be re-designated to the general fund. Designations to member agencies are included in the first part of the agency's annual allocation. Designations are good for one year. Some designated agencies may not have the ability to acknowledge all donations.
