Arrowhead United Way Announces Patton State Hospital's Plan to Implement Resident Community Outreach Program

SAN BERNARDINO, CA – Patton State Hospital and its 2,000 employees have been giving through the California State Employees Charitable Campaign for many years. This past year, the employees donated approximately \$50,000 to support programs throughout their local community.

Patton is no stranger to working with Arrowhead United Way which is a volunteer driven organization supporting health and human care services for more than 115 years. Recently, Arrowhead United Way was invited to be a part of Patton's first ever Town Hall Meeting where it was announced that they would initiate a program that engages the residents to give back to the community as well. By engaging the residents, they are not only providing a meaningful experience, but they are also bringing awareness to the needs of the local community. Arrowhead United Way is excited to partner with Patton on this endeavor and presented Patton with a plaque for their ongoing support and commitment to the community at their Town Hall meeting.

For more information on how you or your company can become more involved in helping the community through Arrowhead United Way, please call (909) 884-9441 or visit www.ArrowheadUnitedWay.com.

Arrowhead United Way effectively invests resources and builds partnerships which help people lead better lives and make a difference right where we live and work. Arrowhead United Way focuses on solutions to our communities' most vital issues through specific community impact areas. Its proud heritage and commitment to community has made Arrowhead United Way the community leader it is today.
